Assistance in Visualizing Proposed Projects Limits

Dear Mr. Hallock:

I am writing in regard to the Town of Colonie's request to New York State DEC to expand the size of the Colonie Landfill to allow for its operation for another 20-plus years.

Following your recent Community Information Meetings, the Town of Halfmoon developed a proposal to assist residents of the community in their efforts to visual the project. This proposal consisted of placing colored balloons on the site in which the elevation of the balloons would match the elevations of the proposed expansion. This seems to me to be an excellent suggestion and would provide a reasonable and effective way for neighbors to accurately envision the impact.

I strongly support this proposal made by the Town of Halfmoon and hope that you will give it careful consideration. Please feel free to contact me if you would like to speak with me in regard to this.

Sincerely,

Kathleen A. Marchione
