RE: ROUTE 9 @ STONE QUARRY RD
ROUTE 146 @ WERNER RD
TOWN OF HALFMOON
SARATOGA COUNTY

Dear Mr. Manz:

We are in receipt of your July 25, 2016 letter that included requests from the Town of Halfmoon for traffic signal studies at the subject intersections.

The Department previously received requests for traffic signals at both of these intersections from private citizens and has initiated the studies. We will be waiting to collect the traffic volume data until after the start of the 2016-2017 school year in September. When our studies are complete, we will copy both the Saratoga County Department of Public Works and the Town of Halfmoon Clerk with our conclusions.

Should you have any questions, please contact Mark Pyskadlo of my office at 518-457-5283.

Sincerely,

Mark Kennedy, P.E.
Regional Traffic Engineer
