

Dear Neighbors ,

Please consider this invitation to a public meeting on June 8, 2015 at the Waterford-Halfmoon Middle School (125 Middletown Road, Waterford, NY 12188) hosted by Waste Connections and Capital Region Landfills.

We would like to share the latest Town of Colonie Landfill information with our local communities at that time. Our team will also provide an update on the Area 7 Development and where the project stands with respect to the New York State Department of Environmental Conservation permitting process.

Attached please find the agenda for the meeting. If you have any further questions please do not hesitate to reach out to me at 518-951-9690.

Best,
Donald Hallock
