**Cambell Subdivision, 403 Hudson River Road- Area Variance (SBL#286.11-1-2)**

Thomas Hansen presented an application for area related variances being requested as part of a proposed Minor Subdivision application before the Planning Board. Mr. Hansen filed an application with the Planning Department to subdivide an existing 1.73 acre parcel into two new lots, but due to the underlying zoning district (M-I) the lots are required to have a minimum lot square footage be 50,000 SF and the newly proposed lots will not meet these size requirements. Mr. Hansen requested two lot area variances with Lot A requiring a 13,845 SF variance and Lot B requiring a 10,796 SF variance; additionally the applicant is seeking a 43-foot variance for the existing single-family home front yard setback.

Mr. Burdyl asked if he would be consolidating the subdivided lot with his adjacent parcel. Mr. Hansen explained that at this time he does not wish to consolidate lots.

The Board asked for clarification for the layout of the surrounding parcels, Mr. Hansen explained the layout of the existing lots surrounding the lot proposing to be subdivided.

A site visit will occur on August 27, 2016.

A Public Hearing will be held at the September 6, 2016 meeting.
