RE: Upcoming Start of Construction
Night Paving – Route 146 between Old Route 146 and Route 236
Town of Halfmoon, Saratoga County
NYSDOT Contract D263153

Dear Supervisor Tollisen:

We are pleased to advise you that work on the above-referenced project is scheduled to start on Friday, July 8. This work will include pavement repairs, traffic signal upgrades, guide rail repairs and an end-to-end inch and a half mill & fill repaving operation.

As you know, Route 146 is a busy road; thus, in the interests of minimizing traffic impacts and expediting the completion of this project, we will progress this work between 9 PM and 6 AM, Mondays through Fridays (that is, the last night of the work week will be the Friday-into-Saturday overnight).

During the overnight construction periods, there will be alternating one-way traffic controlled by flagpersons. For safety and to properly illuminate the work area, light towers will be temporarily placed throughout the project area. We expect that this work will take two weeks to complete. Throughout construction, all properties in the area will remain accessible to residents, emergency responders and delivery vehicles. Please note that we plan to notify residents living along or near the area of this work prior to the start date.

We will be sure to advise you if the pace of progress necessitates any significant changes to the timetable for this project.

Should you have any questions regarding this work, please contact me at 729-3831 (field office), 795-8474 (cell) or Mike.Macri@dot.ny.gov.

Hon. Kevin Tollisen
