Dear Supervisor Tollisen:

Thank you for your recent letter requesting a public hearing on the subject application.

The purpose of a regulatory public hearing is to collect information needed to make a permit decision. Before a decision can be made on your request for a public hearing, we need to know your specific reasons as to why you feel a hearing is required in this matter, including what information or comments would be submitted at the hearing that could not be submitted in writing. It should be noted that written information carries just as much weight in our decision process as those comments presented orally.

Please provide us with your response within 10 days of the date of this letter. No response by this date will indicate that you no longer wish to request a public hearing.

Sincerely,

Andrew Dangler
