Halfmoon Water Emergency Update

Supervisor Tollisen, the Town Board and Town department personnel have been working throughout the evening with local, County and State Officials in an effort to work on a resolution regarding the City of Troy water main break. The number one priority of the Town is to ensure the supply of potable water for the basic needs of its residents. The Town's web site and Facebook page will be updated as well as robo calls when new developments occur.

In addition to Supervisor Tollisen declaring a State of Emergency, the Town has directed all large water consumers to go-off line and not use Town water. Large manufacturers, laundromats, car wash businesses and others have been closed during this State of Emergency.

The water is safe to drink but bottled water is being recommended to ensure conservation purposes. A tanker truck with potable water and bottled water will be available at the Town of Halfmoon Highway Department, located at 322 Rt. 146, beginning mid-morning January 19, 2016 for Halfmoon residents to help them in the conservation effort.
