Summary Meeting Notes

Attendance: Committee Members (voting):, Eli Taub, Fred Bahr, Brenda LaMere, Wayne Allen; Committee Members (non-voting): Jim Bold, Jeff Burdyl, Jason Dell; Town Board/Staff:, Paul Hotaling, Paul Marlow, Michael Bianchino

P. Marlow opened the meeting by requesting approval of the 8/21/2014 summary meeting notes. Approved ó unanimous.

Mr. Marlow began the meeting by explain to the Committee that they should consider going through the triage chart, point by point and evaluating each item to see what the Committee feels needs more discussion and which items may be ready to submit to the Town Board. The Committee agreed that this would be the best approach, as to not confuse things they have previously agreed on with things they wanted to continue to discuss. The Committee felt as if it was time to begin to finalize points and start to put together an initial proposal of their recommended changes to the Code for review and consideration of the Town Board.

The Committee spent the duration of the meeting going through the triage chart and addressing each issue, in an effort to eliminate items that no longer needed discussion. The Committee reviewed all items on the agenda and came to a consensus on each point.

A copy of the updated triage chart as well as completed points is available on file at the Planning Department.

Meeting adjourned at 8:45 PM. The next meeting will be Thursday, October 16, 2014 at 7:00 PM.
