## **EVENT: A New Addition to Museum Pass Program**

The Friends of the Clifton Park-Halfmoon Public Library are pleased to announce a new museum has been added to the Museum Pass Program. The addition of The Empire State Aerosciences Museum is one of 11 museums in this program at the library.

The Empire State Aerosciences Museum is a one-of-a-kind cultural resource located at Schenectady County Airport in the Town of Glenville, NY, at the site of the former General Electric Flight Test Center. Dedicated to interpreting aviation, particularly as related to New York State, the Museum offers visitors a variety of enjoyable and educational experiences, including interpretive exhibits, a spectacular collection of restored aircraft, the state's largest aviation library, as well as education programs. The Empire State Aerosciences Museum pass admits a family of 4.

Library Cardholders in good standing who live in the Library District and are 18 years of age or older may now check out membership museum passes for eleven museums at no cost; occasionally, there may be a charge for a special exhibit. Museum passes may be borrowed for 3 days.

For more information about each museum, inquire at the **"Ask a Librarian"** Desk at the Clifton Park-Halfmoon Public Library.
