## For Immediate Release

### Town of Halfmoon Completes Improvements to Halfmoon Town Park

Halfmoon Town Supervisor, Kevin Tollisen, announced today that the Town of Halfmoon Parks and Recreation Departments completed its 2014 improvements to the Halfmoon Town Park. Supervisor Tollisen advised that the Town opened a new toddler playground at the Halfmoon Town Park on August 22, 2014. Since that time, the Halfmoon Parks Department has also completed the installation of five (5) exercise stations along the Park Trails of the Park located on Route 236 in Halfmoon. At each station, there are instructions for arms, length, and cardio exercises to help an individual's strengthening.

The Town of Halfmoon has also installed a water sprinkler system to the main baseball field at the Town Park. This is the first of a series of water sprinkler installations that is planned for the Baseball fields over the next few years in an effort to maintain the fields in proper condition.

This project was made possible thru the Recreation Funds in the Town of Halfmoon's budget for these special purposes.

For additional information, please contact the Town Supervisor, Kevin J. Tollisen.
